

# T-1000 HOME WIFI CONFIGURATION

This guide explains instructions on how to connect your T-1000 printer to your home wifi and access the G3D Web UI.

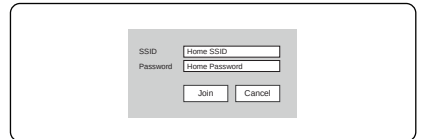

1 Press the <⚙️>printer configuration icon at the top right of the Web UI index page.

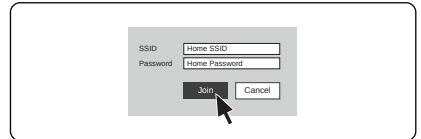

2 Select <Home Wifi>.

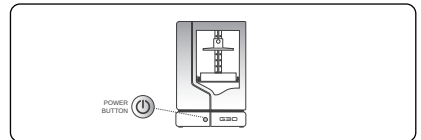

3 Home wifi configuration box will appear after you select the home wifi. You need to type your new SSID, new password and new hostname to configure the settings.

4 Press <Join> button.

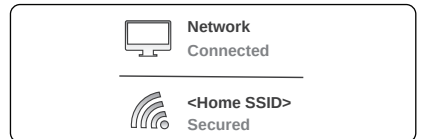

5 Printer will shut down after you press the join button. Push the power button to turn on the printer.

6 Close your browser.

7 Connect the device to home wifi where the printer is also connected.

8 Open a browser and type g3dprint:8080 in the URL box. Press enter to access the Web UI.
